

All **Your Talent.**
All in **One Place.**

From **ANY** Source.

Hiring is hard. QuantumWork can help.

QuantumWork aggregates all data from your current CRM, ATS, and VMS systems into a single, simple solution.

Access All Your Talent. All in One Place.

A Single View of Total Talent

Search all of
your systems at
the same time,
in real time, all
the time.

Making Talent Analytics Make Sense

Get all the talent data
you need to make
better hiring
decisions faster.

Top Talent Meets the Bottom Line

Prove your
recruiting ROI and
align talent
strategy with
business objectives.

Talent solutions should solve problems, not create them.
That's **why we built QuantumWork.**

From sourcing to screening, selection to succession, no matter what kind of workers you have, QuantumWork makes sure that you've got the total picture when it comes to total talent.

Driving hiring decisions with talent data is easy when you've got the right roadmap.

How QuantumWork works for your workforce.

Access multiple talent sources across all worker types within one system.

Real-time search results across all systems and sources to find immediate matches for any job criteria.

Strengthen submissions with a streamlined, simple process.

Fit happens with our stack ranking algorithm, automating intelligent talent matching, and candidate slating.

How QuantumWork works for your business.

Integrate core HCM, CRM, ATS, and VMS data to find top talent across worker classifications.

Make the best talent decisions with the best market data.

Plug and play with configurable, comprehensive pre-built integrations.

Simplify and streamline your talent technology stack by accessing our marketplace of highly vetted best-in-breed point solutions and service providers.

QuantumWork's comprehensive talent platform provides complete visibility across all talent systems and sources so that you can make better hires faster. We make hiring managers happy, and recruiters' lives easier.

All Your Talent. All in One Place.
